

INVOLVING MINORITIES

Fostering inclusion and empowering marginalised communities (e.g., senior citisens, people with disabilities, people on the edge of the labour market).

2023 BWF WORLD CHAMPIONSHIPS

During the World Badminton Championship in Copenhagen, Danske Seniorer created a volunteer program for seniors to engage them in the event and facilitate building new social communities. Around 30 seniors participated in the program, which highlighted the physical and mental health benefits of racket sports.

Partners: Danske Seniorer, DGI, Badminton Denmark, and Copenhagen Legacy Lab.

COPENHAGEN GAMING WEEK 2025

Prior to the official opening of the festival, more than 200 seniors took part in a pre-event with a dedicated focus on cybersecurity. The educational event included a presentation from the Danish police as well as an interactive quiz. The aim was to strengthen seniors' digital resistance against cybercrime, enabling them to act as ambassadors within their communities and disseminate their knowledge after the event.

Partners: Danish police (The Police Online Patrol), Danske Seniorer, Bellagroup, and Copenhagen Legacy Lab.
