

POLICY WORKSHOP

Influencing policies through dialogue between leading figures in the sector (e.g., government officials, policymakers, national authorities).

IWA WORLD WATER CONGRESS AND EXHIBITION 2022

During the congress in Copenhagen, a High-Level Summit was hosted to address the role of water in connection to climate change. The summit gathered leading figures from the water sector, government officials, and policymakers with the aim to strengthen the political focus on water related SDG's and implement changes that improve lives and protect the environment.

Partners: The International World Water Association (IWA), the Danish Water and Wastewater Association (DANVA), Ministry of Environment, Ministry of Foreign Affairs, State of Green, Copenhagen Legacy Lab, and more.

TOUR DE FRANCE 2022

Prior to the event, 34 public and private actors joined forces in a common declaration to promote cycling in Denmark at a meeting in Copenhagen. The aim of the declaration was to unite efforts towards achieving a 20% increase in bicycle rides by 2030 compared to 2022 and work towards creating a new national cycling strategy.

Partners: The City of Copenhagen, Danish Chamber of Commerce, the Danish Ministry of Transport, and more.
